

QDialog

```
classDiagram
    class QDialog
    class GUIController {
        Help_window
    }
    GUIController --|> QDialog
```

The diagram illustrates a class inheritance relationship. At the top is a white rectangular box with a thin black border containing the text 'QDialog'. Below it is a gray rectangular box with a thick black border containing the text 'GUIController.Help\_window'. A solid blue arrow points vertically from the top center of the gray box to the bottom center of the white box, indicating that 'GUIController.Help\_window' inherits from 'QDialog'.

GUIController.Help  
\_window
